Applications

- Enables Between Series Connections
- General Purpose Test

Description

TNC male to BNC female adapter part number FMAD10074 from Fairview Microwave is in-stock and ships same day. This Fairview TNC to BNC adapter has a male to female gender configuration. FMAD10074 TNC male to BNC female adapter.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
