

SMA Male to MMCX Plug Adapter

SMA male to MMCX plug adapter part number FMAD1306 from Fairview Microwave is in-stock and ships same day. This Fairview SMA to MMCX adapter has a male to plug gender configuration. FMAD1306 SMA male to MMCX plug adapter. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
