

FMCA2396-12 DATA SHEET

Test Probe SMA Female 4 Hole Flange to Trimmed Lead Cable FM-SR086TB Coax in 12 Inch

The 50 ohm SMA Female to pre-trimmed lead cable using FM-SR086TB coax, part number FMCA2396-12, from Fairview Microwave is in-stock and ships same day. Fairview Microwave's formable cable assemblies provide a convenient alternative to their semi-rigid versions, as they offer similar electrical performance but can be bent to desired shape without the use of special tools.

Fairview's hand formable test probes are convenient ready-to-use probes designed for use in testing microwave circuits. These probes are constructed of high quality hand formable coax and a SMA Female connector. The assemblies come in multiple cable diameters to help when attaching two very fine traces or into tight spaces. There are two versions including straight-cut probe ends for those that would like to customize the dimensions of the center conductor and dielectric dimensions as well as pre-stripped probe ends that are ready for immediate use. Each assembly has been RF tested to ensure VSWR specifications of the assembly are met prior to trimming. Each assembly comes in special packaging to protect the coax and pre-trimmed probe ends.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.

Electrical Specifications

Description		Min	Тур	Max	Units
Frequency Range		DC		18	GHz
VSWR				1.5:1	
Velocity of Propagation			69.5		%
Capacitance			29 [95.14]		pF/ft [pF/m]
DC Resistance Inner Cor	ductor		65.7 [215.55]		Ω/1000ft [Ω/Km]
DC Resistance Outer Cor	nductor		10.2 [33.46]		$\Omega/1000$ ft [$\Omega/$ Km]

0.78 in [19.81 mm]

Configuration:

- SMA Female 4 Hole Flange
- Trimmed Lead
- FM-SR086TB

Features:

- Max Frequency 18 GHz
- 69.5% Phase Velocity
- 100% RF Tested prior to final trim
- 1.5 Max VSWR to 18 GHz
- 100% High Pot Tested to 500V
- 0.085 Diameter Formable coax
- Individually packed in protective tube

Applications:

- General Purpose
- Test & Measurement
- Laboratory Use
- RF Test Lead for Measurements up to 18 GHz/Testing of Individual Function or Subsection of an RF Circuit Board
- Inject Signals for Test and Verification

Fairview Microwave 301 Leora Ln., Suite 100 Lewisville, TX 75056

Connectors

Description	Connector 1	Connector 2	
Туре	SMA Female	Trimmed Lead	
Mount Method	4 Hole Flange		
Impedance	50 Ohms		
Contact Material & Plating	Beryllium Copper, Gold		
Dielectric Type	PTFE		
Body Material & Plating	Stainless Steel, Gold		

Test Probe SMA Female 4 Hole Flange to Trimmed Lead Cable FM-SR086TB Coax in 12 Inch from Fairview Microwave has same day shipment for domestic and International orders. Our RF, microwave and millimeter wave products maintain a 99% availability and are part of the broadest selection in the industry.
