

RA QMA Male to QMA Female Bulkhead Cable Tinned Copper RG402 Type .141 Coax in 100 CM

The RA QMA male to QMA female bulkhead 100 cm cable using Tinned Copper RG402 type .141 coax, part number FMCA2888-100CM, from Fairview Microwave is in-stock and ships same day. This Fairview QMA to QMA cable assembly has a male to female gender configuration with 50 ohm semi-rigid FM-SR141CUTN-STR coax. Fairview Microwave's semi-rigid RF cable assemblies are ideal for high performance applications and can be formed, using proper tooling, to the routing pattern required. The FMCA2888-100CM QMA male to QMA female cable assembly operates to 18 GHz. The right angle QMA interface on the FM-SR141CUTN-STR cable allows for easier connections in tight spaces. Our RF cable assembly with QMA bulkhead interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other RF cable assembly value added services including connector orientation or clocking, heat shrink booting and labeling are also available. RF testing can also be performed to document the electrical performance of your cable assembly.
