

FMBC003-BULK DATA SHEET

.070 Low Loss Semi-Rigid Coax Cable with Copper Outer Conductor and Microporous PTFE 76.5 pct VoP Dielectric, Straight Sections

Low loss 070 semi-rigid coax cable, part number FMBC003, from Fairview Microwave is in-stock and ships same day. This .070 inch diameter semi-rigid cable features a microporous PTFE dielectric and operates to a maximum frequency of 72 GHz. The outer conductor of this semirigid low loss coaxial cable is constructed from a continuous copper tube which minimizes attenuation and maximizes RF shielding performance. The microporous (low density) PTFE dielectric also reduces attenuation and offers the added benefits of phase stability vs. temperature and improved thermal stability.

Improved thermal stability of this microporous semi-rigid cable allows it to be soldered with minimal dielectric expansion and stress on the connectors. Fairview's low loss semi-rigid coax with microporous PTFE, FMBC003, datasheet with specifications and outline drawing are shown in the PDF below. Our extensive offering of RF, microwave and millimeter wave connections allow designers to configure and customize their signals however they like. From creating phase stable connections to reducing cable attenuation, Fairview Microwave has the right cable solutions to meet your needs.

Electrical Specifications

Min	Тур	Max	Units
DC		72	GHz
	50		Ohms
	76.5		%
		DC 50	DC 72

Performance by Frequency Band

Description	F1	F2	F3	F4	F5	Units
Frequency	0.5	1	5	10	18	GHz
Attenuation, Typ	14 45.93	20 65.62	45 147.64	64 209.97	87 285.43	dB/100ft dB/100m
Power In (CW), Max	265	188	83	58	43	Watts

Mechanical Specifications

Min. Bend Radius (Installation)

0.25 in [6.35 mm]

Construction Specifications

Material and Plating	Diameter	
Copper, Silver, 1 Strands ASTM B-298	0.02 in [0.51 mm]	
Solid		
Microporous PTFE	0.059 in [1.5 mm]	
Copper	0 in [0 mm]	
	Copper, Silver, 1 Strands ASTM B-298 Solid Microporous PTFE	

Configuration:

- Low Loss Semi-Rigid Cable
- 1 Shield(s)

Features:

- Continuous Copper Outer Conductor
- Phase Stability vs. Temperature
- Low Density PTFE Dielectric
- Reduces Stress on Connectors
- High Isolation
- Supplied in 5 foot maximum straight lengths

Applications:

- Microporous Cable Assemblies
- Low Loss Interconnects
- High Isolation Cables
- Surface Mount
- Semi-Rigid Coaxial Cables

Notes:

.070 Low Loss Semi-Rigid Coax Cable with Copper Outer Conductor and Microporous PTFE 76.5 pct VoP Dielectric, Straight Sections from Fairview Microwave has same day shipment for domestic and International orders. Our RF, microwave and millimeter wave products maintain a 99% availability and are part of the broadest selection in the industry.
