N Male to BNC Female Adapter

Type N male to BNC female adapter part number SM3511 from Fairview Microwave is in-stock and ships same day. This Fairview type N to BNC adapter has a male to female gender configuration. SM3511 type N male to BNC female adapter operates to 5 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.2:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Configuration:
- N Male Connector 1
- BNC Female Connector 2
- 50 Ohm
- Straight Body Geometry

Features:
- VSWR of 1.2:1 max up to 5 GHz
- Type N interface meets MIL-STD-348
- BNC interface meets MIL-STD-348
- Contact plating according to MIL-G-45204
- Gold Plated Contact

Applications:
- Enables Between Series Connections
- General Purpose Test
